AUTHORIZATION TO REPRODUCE

There are legal concerns involved in using photographs and other tangible works. The reproduction of cards, designs, photographs or other tangible works requires the written consent of the author (i.e. artist, photographer, writer, composer). Ownership or possession of a copy does not give the possessor the right to reproduce the work without written consent of the author. Photographers and authors automatically obtain copyrights on all their work and retain those rights unless transferred in writing. A customer must have written permission from the photographer for the use of a photo or negative. When a negative or photo is given to PSI for production of an order, PSI must have a signed release form to be able to use the item. Here is an Authorization to Reproduce form you may have. A copy of this form must be completed by the author of each work to be reproduced. Please re-

turn this form (with a sample of the copyrighted item attached) with any order requesting reproduction of a card, design, photograph or other tangible works. Thank you.

This will certify that the person or entity named is the author and copyright owner of the work described as _____ (a copy of which is attached to this authorization), that the author consents and authorizes Printing Services, Inc. to reproduce the work, and that the author will indemnify, defend and hold Printing Services, Inc. harmless from any suit, claim or demand arising from the reproduction of the work.
